ENVIRONMENTAL PROTECTION AGENCY

INTER-OFFICE CORRESPONDENCE

DATE: June 1, 1973
MEMO TO: C. E. Clark
FROM: R. Van Someren ✓
SUBJECT: WILL COUNTY - LPC
Rockdale/Banner

JUN 14 1973
RECEIVED - OFFICE OF THE ATTORNEY GENERAL
JUN 14 1973

On the above date I inspected the subject site with Mike Schmitt, DWPC. I requested that Mr. Schmitt join me for a joint inspection subsequent to his advising me that leachate from the fill was entering a creek that drains into the I & M Canal. Mr. Schmitt became aware of this problem during his investigation of a fish kill in the Canal near the Banner landfill site.

The inspection disclosed that several apparent violations of the DLPC Rules and Regulations relating to refuse disposal sites and facilities existed. Apparent violations include open dumping, lack of daily cover, lack of final cover, deposition of refuse in standing water and the discharge of leachate from the fill to a creek leading towards the I & M Canal. Mr. Schmitt indicated that he would pursue the Water Pollution aspect of the site and I indicated I would pursue the Land Pollution aspects.

A reinspection of the site has been scheduled during the week of June 4, 1973. Should the situation warrant, a checklist will follow.
